## Summary

---

I'm a software developer with a great interest in designing new and better solutions for complex problems. I enjoy working with different people from different backgrounds, cultures, languages etc. And this helps me grow and learn a lot more as a person.

## Experience

---

**Software Developer**- 08/2020 to present

**Raja Software Labs, Pune**

- Hands on experience in app development with **data binding, mvvm, single activity** and **dagger 2** implementation.
- Android ui and accessibility mplementation.
- Writing automated tests for my changes.
- Github.

## Projects

---

- **PurrFact android application** (2023 -present)
- **Leetcode solutions** (2022 -present)
- **Tic-tac toe android application** (2020)
- **Brain tumour detection using CNN** (2019-2020)  
Group project  
Associated with Dr. D. Y. Patil Institute of Engineering & Technology, Pune
- **Wifi hotspot creator** (2019)
- **Crop-selector** (2018)  
Group project  
Associated with Dr. D. Y. Patil Institute of Engineering & Technology, Pune
- **School admission registration system** (2015)  
Associated with Kendriya Vidyalaya O. F .Bhandara

## AWARDS

---

Scored **99/100** in comp science class 12th

Won college level **programming competitions**.

Problem solving **certifications and badges** from various online platforms
